Would Carry Mail in Airplanes.

Aircraft as mail carriers was the suggestion made in a paper read before the Institute of Engineers and Shipbuilders, Glasgow. It was pointed out that in the first place the speed of aircraft was much greater than that of surface vessels. The considerable difference in the speed of aircraft and of watercraft would bring about a greatly increased exchange of correspondence between distant countries than was now possible, and this accelerated rate of exchange of correspondence would react upon the commerce between such countries, and consequently upon their shipping. In the light of such reasoning it was apparent that the commerce and shipping of a country must profit considerably by the advent of aircraft.

Advice Passed On.

When a girl is going to get married her mother usually gives her all the good advice which was given to her when she was married and which she has never used.

Novel Water Heater.

One of the numerous new electric heaters has the form of a nickel tube seven inches long, with the usual cord and plug connecting to a lamp socket. The resistance coil in the tube becomes intensely hot very quickly, and it is claimed that shaving water in which the tube is immersed will be heated in less than a minute. In a little longer time small quantities of water or other liquids can be raised to boiling.

NATIONAL WAR CAP "TALKS"

Montenegrin "Kapa," Worn by Prince and Peasant, Emblematic of Country's History.

The round cap, or kapa, that the Montenegrin soldiers wear is a history of their country in miniature. The people of Montenegro, writes a correspondent of Pearson's Weekly, have a saying that "kapa talks," and they are not far wrong.

It is the national headdress for war, and it is the same for prince and peasant. In color it is a vivid crimson, but it has a deep black border, which leaves only a small crown of the foundation color visible.

The black border is a sign of mourning for the terrible Battle of Kosovo, when the old Serbian empire, of which Montenegro was a part, was overthrown by the Turks, and the Serbian army was annihilated. The red crown signifies "the field of blood" of the same great fight. When Constantinople falls, and their hereditary enemies are finally driven out of Europe, then, and not until then, will the Montenegrins remove the black border and wear the kapa all red.

On the red crown, in one corner, are five semicircles in gold. These have a double significance. They symbolize first the five centuries that have elapsed since Kosovo was fought, and, secondly, the five colors that the Montenegrins see in the rainbow, the sign of hope that one day the glories of the old empire of the Czar Lazar will be restored.—Youth's Companion.

Preferred Jest to Surgery.

André Pare, the renowned French surgeon, as a member of the staff of the duke of Vendôme, with whom he was on close personal terms, demonstrated to his patron the use of the ligature for repressing hemorrhage. And Doctor Babelis also. Had he been less of the jester and attempted to his practice with greater diligence, he, too, might have won greater success in this world. The creator of Pantagruel and Gargantua was a diplomat when he went with Cardinal de Bellay to Rome. The itch for satirical writing soon became so chronic with him that he lost his professional perspective. However, his more felicitous poem concerning the birth of a son to Henry II brought about his recall to France and restored to him something of the favor he had previously enjoyed.

Depressing Thought.

Whenever anything we have been thinking of buying is really marked down in price, the announcement is accompanied by the depressing information that this sale is strictly cash.—Ohio State Journal.

THE KENTUCKIAN FOR 1917

EVER since the year 1868, the HOPKINSVILLE KENTUCKIAN has been published under one name or another. In 1879 the present name was given and the present management took charge of the paper, which is now in its 39th volume. For almost 40 years it has been a faithful exponent of the growth and development of the city and county. It has written in its files a history of the county covering that long period. It has recorded the birth of three generations in some instances. It has seen the small town develop into a prosperous city with its people ever looking forward to greater things.

During all these years it has had a loyal and constant patronage from the best people of the county. It has many subscribers whose names have not been off its subscription lists in 39 years. In many other families sons have taken their father's places. We would be ungrateful not to appreciate support like this, but we have never come to the reading public with a stronger appeal for patronage than this year. Conditions have greatly changed and paper stock is three times as high as a year ago.

Many newspapers have advanced rates but in order that the circulation may not be lessened by a higher price the KENTUCKIAN will still be sent for \$2.00 a year, the old price. It will be necessary though to adhere rigidly to the cash system, since more than \$1.00 must be paid in advance for the paper upon which we print 156 papers and the cost of printing leaves but little profit out of the second dollar. We are asking our old subscribers to stand by us in this crisis by renewing promptly.

All papers not paid for will be Stopped.
Don't Let Yours Stop.

The Price Will be the same \$2.00 a Year
as heretofore,

Hopkinsville Kentuckian
